The deliberate marimba (CMCD 015)

Release august 2007

Courthouse Music are proud to present one of our finest CD's up to date.

Johan Bodin Eriksson has traveled deep into the piano music by **Chopin** and returns with 9 arrangements that let's us see the Polish genius in a different light. This rare production, recorded in the old Courthouse in Nyland, gives an opportunity to appreciate some of Chopin's most beloved works from a different point of view.

Two contemporary works, the beautiful "Lerche" by Wulff, wonderfully interpreted by Johan and John Cage's mysterious "Dream", fulfill the CD with the same intimacy the Chopin arrangements provides.

Johan Bodin Eriksson is one of Sweden's leading marimba virtuoso and this is his third recording on the exclusive Courthouse Music label.
